We are continuously improving and updating our products and product information. It's therefore possible that there is a slight difference between the description in this manual to the operation of the product. If something is different or not clear, always check our website for the most current manual version. All images and illustrations used in the app are indicative and may vary per device or version.

Quick setup manual

Description

1. Latch (for opening the sensor)
2. LED
3. magnetic contact
4. Reset
5. Tamper switch

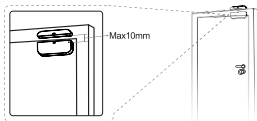

Use

1. Just download the app “qnect home” from the Apple app store or the Google Play store
 2. Start the app
 3. If you're using it for the first time, you'll have to register and create a new account. If you already have an account, log in using your login details.
 4. Click “+” in the upper-right corner in the app, and in the list select ‘Security > QN-WDS01’
 5. Open the battery compartment by pressing the latch and removing the back of the smart door sensor. Install the batteries (2x AAA, not included) into the battery compartment. Close the battery compartment.
- If the status indicator does not flash: Press and hold the reset button for 5 seconds.
 - If the status indicator flashes quickly : Confirm in the app.

6. Confirm the Wi-Fi network and password.
7. Enter the device name.

Note: The device name will also be used by Amazon Alexa and Google Home.

8. Mount the sensor at the required location.

Safety

- To reduce risk of electric shock, this product should only be opened by an authorized technician when service is required.
- Disconnect the product from the mains and other equipment if a problem should occur.
- Read the manual carefully before use. Keep the manual for future reference.
- Only use the device for its intended purposes.
- Do not use the device if any part is damaged or defective. If the device is damaged or defective, replace the device immediately.

Warning!

- Do not use cleaning solvents or abrasives.
- Do not clean the inside of the device.
- Do not attempt to repair the device. If the device does not operate correctly, replace it with a new device.
- Clean the outside of the device using a soft, damp cloth.
- The product is intended as an IP security camera for outdoor use.
Consult the local laws and regulations for security cameras before using and installing
